

Thanh Hieu Truong

Graduated Developer

I'm a recent graduate in Software Development who is looking for an opportunity to kick start my career as a Front-End Web Developer. I'm highly self-motivated with good working attitude, enjoy sitting in front of computer and get things done. Good listener who is willing to take comments and face my limitations to improve myself. Become handy as part of the team is what I admire. Also, I enjoy learning and I'm keen to learn new languages and technologies to expand and enhance my skill set. It not only keeps me up to date with latest technologies but also helps to provide more efficient works.
